MANNING MANSE MESSENGER

March 2010

Manning Association Meeting December 2009

Greetings to our Cousins!

During the past year, the Manse has undergone some structural repairs, including reshingling the roof of the dining area of the restaurant, and repairing some windows. We have abandoned our efforts to connect to the municipal sewer system at this time. The estimated cost would have exceeded \$100,000. We will diligently continue to maintain our onsite system.

We are also working at several ongoing projects, such as upgrading our record keeping, finding and identifying family artifacts, and creating new items for sale at the Manse.

Our tenants, the Villaggio Restaurant, and its Manager, Luis, has taken good care of their area within the property. The Lowell Sun, a local newspaper, has recognized the Villaggio for its fine food and warm hospitality. It can accommodate fairly large groups and combines well with a visit to the Manse and area sites.

Our newest trustee, Lee Manning, has created a website, www.manningmanse.org. We hope to expand and develop this site in the future for better communication amongst the family.

Our annual Manse reunion is scheduled for noon on June 26th, and we hope to see you there!

Regards, Lennie Manning
President of Board of Trustees

Items to be considered:

1. Connect to Sewer System

**Respectfully submitted:
Peter (Manning) Stuart, Treasurer**

**Manning Association Assistant Treasurer Report
February 6, 2010**

There are a total of **43** paid memberships for **2010** according to all receipts of dues to date. As always, the cancelled checks will serve as receipt of payments. If any yearly dues payments of \$25 are sent in response to the mailing of the March 2010 newsletter, those payments will be credited for the current 2010 yearly dues.

All monies have been deposited into the interest bearing Bank of America business account with a total of **\$6,713.34** as of statement period 1/1/10-1/31/10.

I recently received communication from Elaine M. Peverly regarding the passing of her late husband Arthur W. Peverly on 10/17/07. She included payment of dues with her intent to continue her family's membership so that her children will be aware of the historical significance of her husband's Manning family and hopefully attend meetings and participate in the future. She shared that Arthur's mother was Edith Olive Manning Peverly who was married to Harry Robert Peverly and had two sons, Russell E. Peverly and **Arthur W. Peverly**. A sympathy card was sent to Elaine in condolence of her and family's loss, as well as much appreciation for her information.

Best regards to all,
Melanie Stuart Claeys

Tear here to return your dues to the Manning Association

This is your Dues Invoice

The Manning Association
c/o Melanie K. Claeys, Assist. Treas., 423 Route 146, Clifton Park, NY 12065

Manning Association Web Site

Thanks to the efforts of our newest board member, Lee Manning, the Association now has a full function web site. Anyone may visit it, and read about the Association and the Manse, using its web address:

<http://www.manningmanse.org>

Our site first came on line in December of 2009. Articles on the web site include a history of the Manning Association, a description of the Manning Manse, and some genealogical information about Samuel Manning, the builder of the Manse in 1696. Visitors can also view a full roster of our board of directors, including email addresses for reaching any of us, as well as copies of the Association news letter, the Manning Manse Messenger.

Association members are encouraged to suggest changes and improvements to the site via email to Lee at:

webmaster@manningmanse.org

Lee lives in Vienna, Virginia, and is able to make any needed modifications from his home.
